SCOPE AND CONTENT NOTE

NIKOLAI DMITRIEVICH TALBERG PAPERS

These papers reflect the writings and research interests of Nikolai Talberg, a government official in pre-Revolutionary Russia and historian, writer, and professor in emigration. Among his writings are works related to late 19<sup>th</sup> and early 20<sup>th</sup> century history, partially based on his own reminiscences and others. Major themes include the history of the Russian Orthodox Church, politics and contemporary issues of the Russian diaspora.

The SUBJECT FILE includes materials on the history of the Russian Orthodox Church and especially on the various jurisdictional conflicts that affected the Church in emigration. Particularly important are the documents dating from 1945 onwards relating to such conflicts in the United States. Of special significance is the correspondence of Archbishop Vitalii Maksimenko with representatives of different dioceses, parishes and organizations.

Detailed processing and preservation microfilming for these materials were made possible by a generous grant from the National Endowment for the Humanities and by matching funds from the Hoover Institution and Holy Trinity Orthodox Seminary. The grant also provides depositing a microfilm copy in the Hoover Institution Archives. The original materials remain in the Holy Trinity Orthodox Seminary Archives as its property. A transfer table indicating corresponding box and reel numbers is appended to this register. Any views, findings, conclusions or recommendations expressed in these materials do not necessarily represent those of the National Endowment for the Humanities.
